

Aura Screen 5%

This premium screen fabric, with 5% opacity, is crafted for indoor use and delivers the perfect balance of natural light, privacy, and outward visibility. It gently filters daylight to minimize glare and UV exposure, while contributing to energy efficiency through light and heat regulation, creating a comfortable and connected atmosphere. With its air of sophistication, it is a great fit for both residential and commercial environments.

Fabric Specification

Composition	PVC Coated Polyester Base
Weave	2x2 Basketweave
Visibility	5%
Width	3000mm
Weight	569g/m ²
Thickness	0.79mm

Cleaning and Care

Surface dust can be removed easily using a soft cloth or sponge with warm water and a mild detergent. Gently wipe the fabric to maintain its appearance and performance.

Avoid using abrasive cleaning tools, harsh chemicals, solvents, or industrial-based cleaners, as these may damage the surface, affect the fabric's integrity, and reduce its lifespan.

5 years for internal applications

- Important notes:
- Warranties exceeding 5 years are subject to a step-down policy, meaning coverage may reduce over time.
- White fabrics are only covered for up to 5 years against discolouration, due to limited UV stabiliser usage in white dye formulations.
