

Soltis 86

Soltis 86 is designed to provide exceptional solar protection while maintaining excellent outward visibility. Its micro-perforated structure allows natural light and fresh air to flow through, reducing glare and heat build-up without closing off the view. This makes it an ideal solution for outdoor shading, terraces, and façades where comfort and transparency are equally important.

Fabric Specification

Composition	Vinyl-Coated High-Tenacity Polyester Yarn
Weave	Micro-Perforated Mesh Weave
Visibility	14%
Width	2670mm
Weight	380g/m ²
Thickness	0.45mm

Cleaning and Care

Remove dust and surface dirt regularly with a soft brush, cloth, or by rinsing with clean water. Light, routine cleaning helps preserve both look and performance.

For deeper cleaning, use mild soap with lukewarm water and a soft sponge or cloth. Rinse thoroughly and allow to air dry. Avoid harsh chemicals, solvents, or abrasive tools.

12 years for internal applications
10 years for vertical external application
6 years for horizontal external applications

- Important notes:
- Warranties exceeding 5 years are subject to a step-down policy, meaning coverage may reduce over time.
- White fabrics are only covered for up to 5 years against discolouration, due to limited UV stabiliser usage in white dye formulations.
