

Soltis 92

This high-performance solar protection fabric is designed to regulate heat and natural light while maintaining outside visibility. Its micro-perforated structure ensures excellent thermal comfort, reducing glare and energy consumption without compromising on style.

Durable and weather-resistant, it is ideal for both indoor and outdoor applications, offering long-lasting performance in demanding environments.

Soltis 92

Fabric Specification

Composition	Vinyl-Coated High-Tenacity Polyester Yarn
Weave	Composite Mesh
Visibility	4%
Width	2670mm
Weight	420g/m ²
Thickness	0.45mm

Cleaning and Care

Remove dust and surface dirt regularly with a soft brush, cloth, or by rinsing with clean water. Light, routine cleaning helps preserve both look and performance.

For deeper cleaning, use mild soap with lukewarm water and a soft sponge or cloth. Rinse thoroughly and allow to air dry. Avoid harsh chemicals, solvents, or abrasive tools.

6 years for horizontal external applications
10 years for vertical external applications
12 years for internal applications

- Important notes:
- Warranties exceeding 5 years are subject to a step-down policy, meaning coverage may reduce over time.
- White fabrics are only covered for up to 5 years against discolouration, due to limited UV stabiliser usage in white dye formulations.
